Obstructions are laying or storrying personal property or sleeping on the sidewalk. Section B covers the streets and bike lanes and prohibit sleeping or placing personal property in these areas. Section C has changed and creates sensitive sites which are buffer zones. These are chosen by the council districts are places such as around daycares, parks, freeways, and schools, anyone that poses a threat to health and public

**Agenda Item 9: General Public Comment**

- A community member wanted to know when it comes to the tiny houses in Highland Park, who does intake? LAHSA and PATH are working closely with CD14. There is a map of a 3-mile radius for people to qualify for people experiencing homelessness. To qualify for a home, you need to be referred by a provider. People living in their vehicles do qualify for housing. Monterey Hills is within this zone. The homes will open November 7.
- There was some concern about brush that had overgrown behind Marshall Terrace and whether it could catch fire. Ms. Cruz will follow up with the fire department on this issue.
- Another community member wants to know about speed bumps. For a long time, we were told that we couldn't have them because of the slope, but this problem has been solved. The window to apply for speed bumps opens in September and January, so look out around the start of the year.

**Agenda Item 10: Adjournment**

- There will not be a November meeting. The final meeting for the year will be Thursday, December 2, 2021.
